Table 1 - Assembled data of alimentary tract duplications in cats showing age and sex, breed, presenting features, anatomic location, morphology, luminal communication, malignancy and recurrence.

Publication	Age/Sex	Breed	Presenting features	Anatomic location	Morphology	Lumen communication	Malignancy	Recurrence
Radlinsky et al., 2005	1y ^a /Female	DSH ^b	Asymptomatic	Jejunum	Cystic	No	No	No
Kramer et al., 2007	2y/Male	Manx	Anorexia, obstipation, straining to defecate	Colon	Cystic	No	No	Yes
Kershaw et al., 2008	7y/Female	DSH	Recurrent vomiting	Jejunum	Cystic	No	No	No
Parry-Smith et al., 2008	3m ^c /NI ^d	NI	Recurrent vomiting, intestinal obstruction	Duodenum	Cystic	No	No	No
Kook et al., 2010	7y/Female	DSH	Constipation, tenesmus	Rectum	Cystic	No	No	No
Bernardé et al., 2014	6m/Female	DSH	Recurrent vomiting, dyspnea	Oesophagus	Cystic	No	No	No
				Duodenum	Cystic	No	No	No
Doran et al., 2015	1,5y/Female	DSH	Chronic regurgitation	Oesophagus	Cystic	No	No	No
Hobbs et al., 2015	15y/Male	DSH	Lethargy, vomiting, anorexia	Duodenum	Cystic	No	Yes	Yes
Agut et al., 2017	7m/Female	Siamese	Recurrent vomiting, anorexia	Duodenum	Cystic	No	No	No
Turner et al., 2019	3y/Female	Manx	Straining to defecate, vocalization	Rectum	Cystic	No	No	No
Carbonell Buj et al., 2020	3y8m/Male	DSH	Rectal prolapse, straining and pain to defecate	Rectum	Cystic	No	No	No
Fruehwald and Ellison 2020	4m/Female	DSH	Constipation	Colon	Segmental	Yes	No	No
Current case	2y/Male	DSH	Recurrent vomiting, mild epigastric pain	Duodenum	Cystic	No	No	No

¹ y = years; ² DSH = Domestic ShortHair; ³ m = months; ⁴ NI = No Information.
